INTRODUCTION

On behalf of the Central Georgia Genealogical Society and it's Publication Committee, I wish to express our graditude and appreciation to Guelda L. Hay and Millie C. Stewart, of Bolingbroke, Georgia for their contribution of the Cemeteries of Taylor County, Georgia. Their work has been donated for publication by our Society.

They spent two years in locating all the white cemeteries and abstracting names, often under extreme difficulty in reaching sites and environment factors at the sites. They have many experiences to relate and once, while using a tape recorder to log their findings, seven negroes lined up along a fence to listen, thinking they were talking to the dead.

They arranged the 55 cemeteries in alphabetical order and within each cemetery alphabetized the names. The undersigned added a surname index to their contribution.

Again our thanks to Ms Hay and Ms Stewart for their addition to our growing list of publications. We know their work will be eagerly accepted by all who do research in and around Taylor County. We hope they will keep us in mind should they undertake new research efforts of any kind. We need more records on Taylor County.

PREFACE

Taylor County is located in west central Georgia. It was created as the 98th county by the State of Georgia in 1852. The county was formed from Macon, Talbot, Marion, and later Crawford Counties. Today, it encompasses 400 square miles.

Taylor County was named for Zachary Taylor, Military General, statesman, and Whig president of the United States. Butler, the county seat, was named for General William Orlando Butler who was a hero, along with General Taylor, at the Battle of Buena Vista in the Mexican War.

This publication came about somewhat by accident, in that the compilers intended to record the cemetery records of their families, and after returning to the cemeteries many times for further names, decided it would be easier to record the entire Cemeteries to save time. Needless to say, we have a lot of personal history in Taylor County.

These records contain all marked slabs and monuments of all of the known cemeteries in the county. In addition, we have recorded with an * obituaries found for unmarked graves and # for death certificates, and + for graves confirmed by family members. The graves were recorded in 1987 and 1988.

A special thanks to Essie Childs McGuffin for obits and death certificates, Hubert Young for taking us to many out-of-the-way family plots, and Bobby Stokes for helping us gather inscriptions from snake infested abandoned cemeteries.

We are grateful to the Central Georgia Genealogical Society for making this document available to other genealogist who are in quest of relatives in Taylor County.
